Welcome to Pisco Peruvian Fusion,
a tasting experience which pays
homage to the ancient cuisine of Peru.
Peruvian cuisine has recently attracted
international attention because it relies
on **techniques & ingredients**
that go back thousands
of years

In addition, it is very distinct for its intensity and freshness, with zesty lime giving it an especially unique kick! **Most of its dishes are cooked on a Josper-Robata grill,** which itself adds extra texture and smokiness to every bite.

Peruvians are so proud of their **heritage** (and so confident about the quality of their ingredients), that they often like to prepare meals in natural open settings. We have embraced this culture as well, bringing our own chefs to the forefront in an open kitchen, so that their food can greet you with its **colorful authenticity**, its **tantalizing aromas** and its **sizzling sounds**.

Of course, no Peruvian experience is complete without a sip of Pisco, a **traditionally-distilled muscat-brandy**, so we encourage you to try out one of our signature Pisco cocktails together with your tasting menu!
